 **RENISIS**

RENISIS

RENISIS.COM

Renisis is a Multidimensional World

The Renisis brand embodies its founder Sardwell's sensibility and identity at the intersection of jewelry, sculpture and theater.

Renisis represents Sardwell's artistic struggle and fight, rebirth and creation, unifying the Latin word *renitor* (to strive or struggle against, to withstand or resist), with the word *genesis* (origin or beginning), and the essence of a renaissance.

Renisis transforms and transports its wearer to another place, both physically and emotionally, providing superpowers to be stronger and to present one's best self to the world.
